

INR Mate – Privacy Policy

Effective date: 25 September 2025

INR Mate is designed to work entirely on your device. We do not collect, store, sell, or share your personal data.

Quick summary

- 1 Data collected by the developer: None.
- 2 Accounts / Logins: None.
- 3 Tracking / Advertising: None.
- 4 Analytics / Crash reporting: None sent to us (Apple may provide aggregated diagnostics if you've opted in).
- 5 Where your data lives: On your device only. iCloud / Health are governed by Apple's policies.
- 6 Notifications: Local (on-device) reminders only. No remote push, no device tokens.

Scope

This policy describes how oddfruit ('we') handles information in the iOS app INR Mate.

Data we do not collect

No servers or backend of our own. No analytics, advertising, or tracking SDKs. No push notifications or device token registration.

On-device data and processing

All data (INR results, dosing, notes) stays local on your device. Deleting the app removes it.

Notifications (local)

Dose reminders are scheduled and delivered on-device via iOS. No data is sent to us.

Optional system features

Health app (HealthKit): If enabled, data stays on device under your permissions; we never see it.
Exports / Sharing: Exports are created locally; you choose if / where to share.

iCloud Backups (Apple)

Any iCloud backups are managed by Apple under their privacy policy. We have no access to them.

Diagnostics from Apple

If you've opted in to share diagnostics with developers, Apple may provide us with aggregated crash logs only. We don't use these to identify you.

Children's privacy

We collect no data from anyone, including children. If a child contacts us, we delete any personal information immediately.

Security

Your data is protected by iOS encryption and device security (e.g., Face ID, Touch ID, passcode).

Your rights (UK/EU/EEA – GDPR; California – CCPA)

Because we don't collect data, rights such as access, deletion, or portability generally don't apply. If you email us, we use your message only to reply and delete it on request.

Third parties

No third-party SDKs for ads or analytics. Any Apple service data (e.g., iCloud, Health) is governed by Apple's terms.

Changes to this policy

If we add cloud features in future, we'll update this policy and App Store privacy label before release.

Medical disclaimer

INR Mate is for tracking purposes only and does not provide medical advice. Always follow your care team's guidance.
